Guitar Extension Speaker Cabinet

OWNER'S MANUAL

MACKIE®

Introduction

Thank you for choosing the Mackie Hotwire EX12 extension speaker cabinet for the Hotwire VT12 professional guitar amplifier. The EX12 is built from the finest materials and components available. The cabinet is carefully constructed and then covered with extremely tough fabric-backed vinyl. It contains a 12" Mackie custom-voiced neodymium speaker.

The Hotwire EX12 has a 1/4" phone plug input on the back of the cabinet for connecting it to the external speaker jack on the back of the VT12, the perfect complement for extending the volume and sound of your VT12 guitar amplifier.

Input Plate

Connect the external speaker jack on the back of the VT12 (or the output of your amplifier rated up to 100 watts into 4 ohms) to this 1/4" jack using a speaker cable.

Note: Do not use a guitar cord (shielded cable) to connect an amplifier to a speaker cabinet. Guitar cords are not designed to handle the higher currents provided by an amplifier.

Important Safety Instructions

2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with dry cloth.
7. Only use attachments/accessories specified by the manufacturer.

11. Exposure to extremely high noise levels may cause permanent hearing loss. Individuals vary considerably in susceptibility to noise-induced hearing loss, but nearly everyone will lose some hearing if exposed to sufficiently intense noise for a period of time. The U.S. Government's Occupational Safety and Health Administration (OSHA) has specified the permissible noise level exposures shown in the following chart.

According to OSHA, any exposure in excess of these permissible limits could result in some hearing loss. To ensure against potentially dangerous exposure to high sound pressure levels, it is recommended that all persons exposed to equipment capable of producing high sound pressure levels use hearing protectors while the equipment is in operation. Ear plugs or protectors in the ear canals or over the ears must be worn when operating the equipment in order to prevent permanent hearing loss if exposure is in excess of the limits set forth here.

2. **Advance Replacement:** Mackie will ship a replacement unit to you along with an invoice for the suggested retail price of the replacement unit. You must return the defective unit immediately to cancel the invoice. If you do not return the defective unit within 30 days, you must pay the full amount stated in the invoice to satisfy your debt.
